Subject: Monthly Portland Harbor Managers Meeting
Date: 10/06/2011 10:37 AM

Chip:

As I mentioned during our telephone call earlier this morning, the LWG does not have any agenda items for next week's Monthly Portland Harbor Managers Meeting. Therefore, unless EPA has some specific agenda items you would like to address next week, we propose to cancel this month's PH Managers Meeting.

You also mentioned that your team has some questions about the differences between the Risk Assessment data sets and the Draft FS data set. As I mentioned during our call, it is probably most efficient for you (or someone on the Agency's team) to contact Amanda Schellenberger directly with these questions. I'll let Amanda know she should expect a call from you regarding this issue. Please be sure to cc Jen Woronets on any email correspondence with Amanda.

Thanks, Jim.
